

Certificate in **Innovation & Entrepreneurship for Development**

An online certification program taught in English that aims to build individuals' capacity in leading entrepreneurship and innovation driven economic development.

The program, offered by Bogazici University in partnership with the Islamic Development Bank, will combine innovation economics, policymaking, marketing, technology road mapping, finance and accounting for startups and business processes for designing a viable growth driven business opportunity. The program consists of 10 courses and a business plan to be submitted by the students. The best 10 business plans will receive recognition certificates from IDB.

75% scholarship is available for the accepted students. To know more about the program and apply, please visit- <http://innovation4development.net/>
